

Brian Mwendwa

SOFTWARE DEVELOPER

SUMMARY

- Focused and quick-learning Software Developer with 1+ years of experience in MongoDB, Express, React, Node, JavaScript, and UX design for various projects and clients.
- Developed full stack applications from the ground up, including a Parking Management System in React and Node, and an E-commerce mobile application in React Native.
- Seeking to use proven skills in MERN technologies and project management to meet business needs

EXPERIENCE

Software Developer - Freelance

Vulnerable Children Concerns Kenya

Oct 2020 - Oct 2021 - 1 year, Nairobi

- Wrote well designed, testable, efficient code by using best software development practices like High Cohesion - Low Coupling to reduce module complexion.
- Built website layout/user interfaces by using standard ReactJs components as well as React Hooks integrating data from various back-end services and databases.
- Integrated a backend email service with Nodemailer.

Software Developer - Intern

ConceptsHub Kenya

Jan 2021 - March 2021 - 3 months, Nairobi

- Designed wireframes with Figma and Adobe illustrator.
- Collaborated with the development team to develop backend and front-end applications with Express, Mongo and ReactJs.
- Deployed web applications through Continuous Integration/Development on GitHub.

Information Technology - Intern

Ministry of Agriculture, Livestock and Fisheries

March 2019 - June 2019 - 3 months, Nairobi

- Handled network routing and configuration for various departments within the Ministry.
- Installed and configured computer hardware, software, systems, networks, printers, and scanners.
- Provided technical support within the department.
